The Master of Accounting (MAacc) program prepares students for dynamic careers in accounting. Students gain valuable business and leadership skills as they prepare to pass the CPA exam and launch an exciting career in public accounting, corporate accounting, nonprofit, government, or other industry sectors. With a MAacc, graduates are qualified to sit for the CPA exam in Utah and most other states, opening doors to a number of career opportunities.

With full-time and part-time options, a wide-range of areas of emphasis, and program options for those without an accounting background, students from any industry can start or advance their career in accounting with a MAacc from the David Eccles School of Business at the University of Utah.

NO ACCOUNTING DEGREE NEEDED

With the Eccles School Pathways program, students do not need an accounting degree to earn our Master of Accounting. Designed for professionals with non-accounting degrees, this flexible option will satisfy prerequisite coursework and award pre-admission to the full Master of Accounting program.

Pathway 1: For students who have an accounting major or minor from a regionally accredited institution in the U.S.
Pathway 2: For students who have a Bachelor’s degree in business from a regionally accredited institution.
Pathway 3: For students who don’t have a business or accounting major or minor.

For more information on the Pathways program, visit: Eccles.link/MAccPathways.
